SUMMARY

Junior Full-Stack Developer with **1+ year** of hands-on experience building responsive web applications using **Next.js, React.js, JavaScript, TypeScript, Node.js**, and **Express.js** primarily focused on frontend technologies while maintaining a enough working knowledge of backend. Delivered **15+ production projects** including custom CMS platforms, a real estate management system, and WooCommerce stores handling everything from REST API development and **MySQL** database design to responsive UI and client-ready deployment. Comfortable working across the full stack and adapting quickly to project requirements in fast-paced teams.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST API Development, JWT Authentication
Databases: MySQL, MongoDB
CMS: WordPress, WooCommerce, Elementor, Custom CMS Development
Tools & Workflow: Git, GitHub, Postman, Vercel, Responsive/Mobile-First Design
Ai Tools: Claude.ai, ChatGPT, V0

EXPERIENCE

IBS Technologies (IBS-TEC) 📍 Lahore, Pakistan

Junior Full-Stack Developer 📅 July 2025 – Present

Technologies: Next.js, React.js, Express.js, Node.js, MySQL, and WordPress.

Projects: Recruitment portals, multi-page business portfolio websites built with Next.js, admin panels, WooCommerce stores, etc.

Challenges: Understanding Next.js server-side and client-side rendering methods (SSG, SSR, CSR, and ISR), learning TypeScript through writing interfaces, using Shadcn UI built-in components in Next.js, implementing e-signatures in websites, sending emails on form submissions, developing backend functionality in Next.js, working with different WordPress themes and understanding their structure, implementing dark and light themes in websites, and resolving TypeScript build-time errors.

Learned: Next.js full-stack development, TypeScript, Shadcn UI, ReactBits animations, environment variables (.env files), working with different WordPress themes, building WooCommerce stores, implementing e-signatures in React applications, and using Nodemailer for sending emails in Next.js.

Website Developer Internship 📅 April 2025 – July 2025

Technologies: React.js, Express.js, Node.js, and MySQL.

Projects: Custom CMS platforms, multi-page business portfolio websites, tour booking applications, etc.

Challenges: Implementing rich text editors, connecting frontend applications with backend services, implementing secure authentication processes, and managing application-wide state without excessive prop drilling.

Learned: Redux Toolkit, JWT authentication, Framer Motion, Vercel deployment, and API testing using Postman.

EDUCATION

Bachelor's in Computer Science

Virtual University (Lahore, Pakistan)

📅 7/2024 – Present Latest CGPA: **3.5**

Intermediate in Commerce

GCU (BISE Lahore)

📅 2021 – 2023 Score: **76.8%**

Matriculation in Computer Science

Govt. City District (BISE Lahore)

📅 2019 – 2021 Score: **90.2%**

PROJECTS

Custom CMS Platforms

Tech: Next.js, React.js, Express.js, MySQL

Developed multiple custom CMS systems giving non-technical clients real-time control over blogs, image galleries, bookings, and page content removing the need for ongoing developer support for content updates.

Recruitment Platform

Tech: React.js/Next.js , Tailwind

Built a multi-step recruitment web application with candidate approval workflow with email sending facility and admin management system.

Business Portfolio Websites

Tech: Next.js, React.js, Express.js, MySQL

Delivered multi-page business websites (Home, About, Services, Contact) with responsive design and on-page SEO best practices for local Pakistani businesses.

Real Estate Management Platform

Tech: React.js, Express.js, MySQL

Built a full-stack real estate platform with a public-facing property listing site and an admin dashboard for property and user management. Implemented secure login, CRUD operations for property listings, and a responsive layout optimized for mobile and desktop.

WordPress & WooCommerce Websites

Tech: WordPress, WooCommerce, Elementor, HTML, CSS, JavaScript

Built and customized client storefronts with dynamic product management, responsive design, and Elementor-based page building.
