PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ year of hands-on experience building and deploying responsive, scalable web applications with Next.js, React.js, TypeScript, Node.js, and Express.js. Delivered 15+ production projects, including custom CMS platforms, recruitment portals, real estate management systems, business websites, WooCommerce and Shopify stores, plus a Retrieval-Augmented Generation (RAG) AI document chatbot. Experienced in RESTful API development, Shopify theme customization with Liquid, MySQL and PostgreSQL, JWT authentication, LLM integration, semantic search, and production deployment. Strong frontend expertise with solid backend skills, adapting quickly to fast-paced projects.

WORK EXPERIENCE

Full-Stack Developer, Full-time | *IBSTEC* Jul 2025 - Present
On-site, Lahore, Pakistan

- Built a Retrieval-Augmented Generation (RAG) document chatbot with Next.js, TypeScript, PostgreSQL pgvector, and Llama 3.2 (Ollama) for natural-language search across PDF, DOCX, and TXT documents.
- Developed 5+ full-stack applications using Next.js, React.js, TypeScript, and RESTful APIs, including recruitment portals and admin dashboards.
- Implemented 10+ features including server-side rendering (SSR), client-side rendering (CSR), e-signatures, API integration, responsive UI, and client-side state management.
- Developed and customized 2+ WooCommerce stores using WordPress and PHP, with product management and e-commerce functionality.
- Completed 2-3 Shopify store development and theme customization projects using Liquid.
- Applied microservices and monolithic architecture, database indexing, and performance optimization concepts across multiple full-stack projects.
- Applied advanced JavaScript/TypeScript concepts including lexical scoping, closures, promises, async programming, and the event loop.

Technologies / Skills Used: *Next.js, React.js, TypeScript, Node.js, Express.js, MySQL, PostgreSQL, Ollama, WordPress, PHP, Shopify, Liquid*

Website Developer, Internship | *IBSTEC* Apr 2025 - Jul 2025
On-site, Lahore, Pakistan

- Developed 3+ full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) with responsive and reusable UI components.
- Integrated 10+ RESTful API endpoints, implemented Redux Toolkit for state management, and handled frontend-backend data communication.
- Implemented JWT-based authentication, protected routes, and role-based authorization across 3+ application modules.
- Used Git, GitHub, Postman, and Vercel for version control, API testing, and deployment of 3+ web applications.

Technologies / Skills Used: *React.js, Node.js, Express.js, MongoDB, MySQL, Redux Toolkit, JWT, Tailwind CSS, Postman, Vercel*

PROJECTS

RAG-Based AI Document Chatbot

- Developed a Retrieval-Augmented Generation (RAG) chatbot for uploading PDF, DOCX, and TXT documents and retrieving answers through natural language queries, with filename and page-number source tracking.
- Built document processing pipelines for text extraction, intelligent chunking, and automated embedding generation using EmbeddingGemma (768-dimensional vectors).
- Integrated PostgreSQL with pgvector for cosine-distance semantic search and Llama 3.2 (3B) via an Ollama-compatible API for context-aware responses; built REST APIs for document upload, retrieval, and deletion.

Technologies / Tools: *Next.js, React.js, TypeScript, PostgreSQL, pgvector, Ollama, Llama 3.2, EmbeddingGemma, Tailwind CSS, Node.js*

Custom CMS Platforms

- Developed and maintained 3+ custom CMS platforms for managing blogs, image galleries, bookings, and dynamic website content in real time.
- Implemented 15+ CMS features including CRUD operations, RESTful APIs, authentication, database integration, and responsive admin dashboards.

Technologies / Tools: *Next.js, React.js, Express.js, MySQL*

Recruitment Platform

- Developed an 11-step recruitment web application with candidate registration, application management, approval workflows, and role-based access control.
- Implemented 10+ RESTful API endpoints for database integration, document uploads, email notifications, and automated candidate status updates.

Technologies / Tools: *React.js, Next.js, Tailwind CSS*

Real Estate Management Platform

- Built a full-stack real estate platform with 50+ property listings, public-facing pages, and property management functionality.
- Implemented property search, filtering, database integration, responsive UI, and RESTful APIs across 5+ core modules.

Technologies / Tools: *React.js, Express.js, MySQL*

Business Portfolio Websites

- Developed and deployed 7+ multi-page business websites with responsive, mobile-first designs and optimized user experiences across devices.
- Implemented SEO best practices, performance optimization, reusable components, API integrations, and cross-browser compatibility across multiple projects.

Technologies / Tools: *Next.js, React.js, Express.js, MySQL*

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, C#, C, C++

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Redux Toolkit, Tailwind CSS

AI & LLM Technologies: Retrieval-Augmented Generation (RAG), LLM Integration, OpenAI SDK, Ollama, Llama 3.2, EmbeddingGemma, Semantic Search, Vector Embeddings

Databases: MySQL, PostgreSQL, MongoDB

E-Commerce & CMS: Shopify Development, Shopify Theme Customization, Liquid, WooCommerce, WordPress, PHP

EDUCATION

Bachelor's in Computer Science | *Virtual University* — Jul 2024 | CGPA 3.16

Intermediate in Commerce | *GCU* — 2021 - 2023 | 76.8%

Matriculation in Computer Science | *Govt. City District* — 2019 - 2021 | 90.2%

CERTIFICATIONS

AI Fluency: Framework & Foundations (Certificate of Completion) | *Anthropic* — Issued Oct 2026

Claude Code in Action | *Anthropic* — Issued Oct 2026

Bootcamp MERN Stack Development | *Nexskill* — Sep 2025 - Dec 2025

Python Programming, Algorithms & Problem Solving | *Knowledge Stream* — Jan 2024 - Apr 2024
